

Pre-course Dossier v1 (13/4/17)

Mountain Medicine, Grasmere

8-10 September 2017

Introduction

Welcome! This dossier is essential reading at your earliest convenience to help you prepare and manage your expectations. An ACTION list at the bottom. This is an *expedition* medical training course with a mountain theme and the style of the weekend reflects this; it will be a fun, practical and hands on team experience. We expect up to 20 delegates normally including medical students, nurses and doctors of all grades.

See the **DOWNLOADS** section on your course web page to access:

- This dossier
- Participant Declaration
- Pre-course reading bundle (Medic courses only)

Fitness to participate – declaration form

You need to be fully able bodied and capable of walking 10-15km in the hills to attend this course. Delegates are required to submit a “**participant declaration**” form on arrival (not by email please). [Download it now please](#) and contact us immediately if you have anything to disclose such as any serious medical condition or concern. What you might consider a controlled medical condition at home might pose different challenges in the hills on a bad weather day. This is to fulfil our duty of care to you and is good governance.

WMT terms & conditions

By booking, you have agree to our terms and conditions here:

<http://wildernessmedicaltraining.co.uk/terms-and-conditions/> These terms apply even if you wish to cancel or defer your participation due to injury/illness, failure to obtain leave, changes in rotas, failure to obtain a travel visa (if required) or any other reasons.

Travel insurance

We strongly advise all students including non-UK visitors to take out suitable holiday/travel insurance as soon as you have paid a deposit/course fee.

Your email address

Changed your email address? Tell us!

White list WMT's email address

Please add wmt@wildernessmedicaltraining.co.uk to your safe sender "white" list. All pre-course emails are sent from this address.

VAT receipts – download now

A link to your receipt is included in the confirmation auto-email WMT sent to you. Print/download this for your records now as their online availability is time-bound.

Names for WMT course certificates

We use the name you booked under, excluding any titles. If you booked as "Tim" and you'd prefer "Timothy" you need to tell us.

CPD credits

We estimate that this course is valid for at least 12 CPD credits.

Full attendance is required to receive a WMT certificate.

WMT course manual/presentations

A comprehensive manual is issued on the course. The manual and PowerPoint presentations are not made available in advance or electronically – sorry!

Venue & travel advice

The course is based at the splendid **Grasmere Hostel** (Broadrayne Farm) just outside of Grasmere Village in the Lake District.

Directions - from this hostel website page <https://grasmerehostel.co.uk/contact>

Sat Nav

Grid Ref: NY 336 094 for Sat Nav - postcode is LA22 9RU (please note that there are several properties with the same postcode within 100 metres of the hostel). There is a reasonable amount of parking at the hostel but car sharing is encouraged.

Driving from the South

Leave the M6 at junction 36. Travel through Windermere and Ambleside and past Grasmere right to our driveway. We are just over 1 mile north of Grasmere village, on the main A591. We are 400 yards north of the Traveller's Rest pub (park here if you can't at the hostel), just past a bend in the road. The farm is on the right going north and is sign-posted on the roadside at the bottom of our drive (both to Broadrayne Farm and to Grasmere Hostel).

Driving from the North

Leave the M6 at junction 40. Travel west along the A66 to Threlkeld, turn left onto the B5322 and travel south until you reach the A591. Turn left towards Windermere, travel past the Kings Head Hotel and Thirlmere Lake. We are at the bottom of the

Pre-course Dossier – Mountain Medicine 8-10 September 2017 Grasmere

long hill that brings you down into Grasmere valley. Turn left into our driveway immediately before the large road sign that says double bend.

Trains, Buses & Coaches, Air

Rail - There is main line service from London, Manchester, Birmingham, Glasgow, and Edinburgh to Oxenholme (The Lake District), with connecting services to Windermere. See www.thetrainline.co.uk Give yourself a margin for travel delays through Ambleside when the course concludes. Consider a flexible ticket.

Bus - Stagecoach buses operate from Windermere rail station. The 555 service drops you off nearly at our door. The 556 & 599 terminate in Grasmere village.

Coach - National Express operate a daily coach service (570) from London, Milton Keynes, Coventry & Birmingham to Grasmere

Air – Manchester airport has good train services to Windermere

See also this hostel page for FAQs <https://grasmerehostel.co.uk/faq>

To avoid any confusion, we ask that you don't contact the hostel directly. The hostel owner (Dave) lives on site and runs a tight ship (hence the standard of the hostel). Arriving early (before 6pm), bringing dogs, inconsiderate parking are some of his hot buttons!

Arrival & departure

Accommodation is included Friday night and the **earliest arrival is 6pm on Friday**. We will email a door code a few days before the course. Please arrive by midnight at latest and if this isn't possible, arrive Saturday morning by 8.30 (you need to make a lunch). Please tell us if you will be arriving Saturday. Most likely students will be in the nearest pub on Friday night – the Traveller's Rest.

No meal or formal meet and greet is arranged Friday night to allow students to trickle in. **We'll kick off the course formally at 9am Saturday**. You will be free to depart promptly at **4pm on Sunday** when we must vacate the hostel. Please make your travel plans accordingly. If you have a train to catch home, there's almost certainly going to be other students in cars who can drive you to the Windermere train station to save you waiting for a bus or pre-booking a taxi. This can be easily arranged on the weekend or in advance via Facebook (see below).

Meals & special diets

Food is included from breakfast Saturday to lunch Sunday. Help yourself to brews anytime. Breakfast is serve yourself after which the ingredients are laid out for students to make their own packed lunch. Dinner is prepared together and is wholesome and plentiful. Any help cleaning up and washing up is appreciated. Vegetarians and gluten free diets can be accommodated (but please tell us well in advance). For other special needs, please contact us before you book. Telling us on

Pre-course Dossier – Mountain Medicine 8-10 September 2017 Grasmere

the day that you can't eat xxxxx after we have already shopped is not helpful! You are welcome to use the kitchen Friday night. Feel free to bring personal snacks and a stash of your favourite herbal infusion caffeine free organic tea bags if you can't do without.

Accommodation

There are shared rooms of various sizes, including bunk beds. We can't guarantee same gender rooms as this depends on the final ratio of genders but we'll do our best to avoid this. Please let us know if you have friends/colleagues you'd prefer to room with (or not!) and we'll do our best to accommodate such requests. See the hostel website for photos of the rooms. We'll put a rooming list on each bedroom door on arrival so you know what room you've been assigned. Please adhere to this as rooms/beds are not randomly assigned!

Programme & course content

Normally Saturday is largely spent high in the fells and on Sunday we are in the hills but closer to the hostel but flexibility is vital for a course that is largely outdoor based. We reserve the right to chop and change the programme and running order as the conditions dictate. Please see the course web page for a content outline but appreciate there is no fixed schedule.

What to bring?

There will be a substantial outdoor element to the course and no easy retreat to indoor facilities (or spare gear to borrow). Please bring adequate warm, wet weather clothing and suitable footwear. Factor in your own experience with our list and recommendations and the weather forecast on the weekend. All bedding/linen is provided (and the hostel forbids bringing in personal linen/sleeping bags). Check the weather before packing! A towel is NOT provided. You can rent one from the hostel if required. The hostel has a drying room.

Equipment & clothing required

- thermal shirt/fleece jacket
- trekking/hiking trousers/leggings (no jeans or cotton shirts on the hill)
- waterproof jacket and trousers
- gloves/warm hat
- water bottle/water bladder
- head torch
- small rucksack for day hiking (not practical to share daypacks)
- trekking shoes (running shoes are not adequate and neither are full weight winter climbing boots) – high cut shoes for ankle support are recommended
- ear plugs (for snorers!)
- toiletries, including some Compeed or another blister treatment / towel
- personal snacks
- compass/GPS (if you already have them and want to practice with your own kit)
- flask – if you want a hot drink on the hill
- large bin liner – for stowing any wet gear for the journey home

Pre-course Dossier – Mountain Medicine 8-10 September 2017 Grasmere

- cash for the pub

Look at the [BBC Lake District mountain weather forecast](#) before you pack and travel.

Leave valuables/electronics/jewellery at home. If in doubt, leave it out.

Connecting with other delegates via WMT's Facebook page

The best (and only) way to contact other delegates is via this Facebook link

<https://www.facebook.com/events/248007322312933/>

Please use this facility to ride share or maybe hook up with other delegates who may be arriving early or staying to explore the area.

Ride sharing

Go green and try to share rides if you are driving. Contact other students via Facebook if you can offer a ride or need one.

Pre-course reading

There's a [pre-course reading bundle](#) online on the course web page. The Oxford Handbook of Expedition and Wilderness Medicine 2nd edition is a useful book (also available as an app and e-book).

Teaching team

Dr Patrick Morgan

Paddy is an Anaesthetic Consultant in Southmead Hospital (Major Trauma Centre for Severn Area) and Critical Care Doctor with Great Western Air Ambulance. He has worked for the Emergency Medical Retrieval and Transfer Service Cymru and as technical rope and flood rescue technician with Avon and Somerset Search and Rescue. Paddy has undertaken expeditions to Greenland, Africa (north, west and east) and medical support expeditions in Europe and South America. He has been medical advisor to various expedition endurance projects including the "Bristol (children's) English Channel Swim", "Virgin Global Row" and the "Engelandvaarder – North Sea Kayak" expedition.

He instructs on numerous trauma, anaesthesia, critical care, human factors and resuscitation courses both in-hospital and the pre-hospital environment. In addition, he has authored several book chapters, and international position statements on these subjects. Including the 2nd edition of the OUP Handbook of Expedition and Wilderness Medicine.

He is a member of the International Lifesaving Society (ILS) medical advisory committee, member of the International Drowning Research Alliance, Honorary medical advisor to Surf Lifesaving GB (including representation on the UKSAR medical group), and was an advisor to the Royal National Lifeboat Institute's Medical & Survival Committee. He lectures on the Royal College of Surgeons of Edinburgh / UIAA Diploma in Mountain Medicine and several university postgraduate paramedic and medical courses. Current research activities include cold water immersion and drowning with the Extreme Environment Laboratory at the University of Portsmouth where he is also an Independent Medical Officer.

Barry Roberts BSc BEd, WMT Commercial Director

Baz has maintained a long-standing interest in adventure and wilderness medicine since ski

Pre-course Dossier – Mountain Medicine 8-10 September 2017 Grasmere

patrolling, climbing and leading canoe expeditions in Canada starting at 15. As a co-founder of WMT and has taught WMT courses for 25+ years. He was a Director of Raleigh International and has 25+ diverse international expeditions under his belt, mostly as the leader, mainly to the mountains in East Africa, the Greater Ranges and Greenland. He is an advanced diver, paraglider pilot, skydiver (now retired), a qualified Day Skipper, ski instructor and ski mountaineer. He is the co-author of *Staying Alive Off-piste*, a contributing author to the OUP expedition medicine handbook (3 chapters) and author of many adventure magazine features. From '04 to '08 he was sponsored by The North Face. Expedition highlights include attempting Everest and the first winter ascent of the highest mountain in the Arctic (Gunnsbjornsfjeld in Greenland) from which he paraglided off. His latest travels included paragliding along the Himalaya in north India and ski touring in Norway.

For problems on the day of travel?

Please text Barry Roberts on 07967 032930. Don't EMAIL. Include your name in the text. If you don't get a reply, we didn't get your text!

Questions?

Please direct questions by email to WMT when you've digested this note. It's only me in the office so if the information you seek is in this document or on the WMT website you're unlikely to receive a reply. Sorry!

Action points:

- Download the *participant declaration* & contact us now with medical concerns. Bring the completed form with you. (No form – no participation.)
- Arrange travel/cancellation insurance
- Advise us now re: special diets (including vegetarian and gluten free)
- Plan your travel. Please tell us if you DO NOT plan to arrive Friday night.
- Let me know any roommate preferences

We look forward to working with you.

Barry Roberts
