

Pre-course Dossier (18/4/18)

FOR ALL WMT COURSES AT GLENMORE LODGE MAY 2018

Welcome folks!

This note will help you prepare for your WMT course so please read it in good time. It does not aim to convey or repeat all the general information available about Glenmore Lodge's facilities etc. which can be found on their website <http://www.glenmorelodge.org.uk>. The information below, especially course timings, supersedes any other information you've read or received. This note is also available on each course page under DOWNLOADS on WMT's website.

What's happening at the Lodge?

Several WMT programmes run over four days with up to 40 students attending. Some students depart with a **Far From Help** (FFH) certificate after two days and the rest continue with alumni joining us for the last two days (**FFH Part 2/Advanced Refresher**) to complete the **Advanced Medicine** syllabus or to refresh their skills having previously attended a WMT Explorer course. It is a busy four days with many interesting people attending with expedition plans to far flung places and as such it is a great networking opportunity, especially as a residential course with a cosy bar!

WMT teaching team at Glenmore Lodge

WMT's Medical Director Dr Harvey Pynn will be the course director. He is an emergency medicine consultant, air ambulance critical care doctor and an expert in jungle/mountain medicine. He will be supported by a very highly experienced teaching team of other instructors/doctors.

Glenmore Lodge – general advice

Travel advice & how to find the Lodge <http://www.glenmorelodge.org.uk/find-us.asp>. The Lodge also has an online travel sharing forum: <http://www.glenmorelodge.org.uk/about-us/how-to-find-glenmore-lodge/travel-forum/>

This **ABOUT US** section of the Lodge website is also useful for general information <http://www.glenmorelodge.org.uk/aboutus.asp>. Towels are provided.

Dress code & kit

Comfortable clothing and sensible shoes are recommended. We normally do some outdoor based teaching on days 3-4 so please bring appropriate outdoor clothes and suitable footwear including a waterproof jacket and pants, hat and gloves. The Lodge "stores" have waterproofs and boots you can borrow for free if you are travelling light. Please ignore the Lodge's generic advice re: outdoor kit – these are not outdoor activity courses.

Meals & refreshments

All meals, coffee and tea breaks are provided by the Lodge starting from breakfast on the first day of your course to afternoon tea on the final day. If you booked a non-residential place, to lunches and coffee/tea is include. Make yourself a packed lunch in the dining room after breakfast please.

Timings for checking in/out

It is **not necessary** to attend the Lodge's normal daily welcome briefing for new arrivals – please just meet in the allocated WMT course room. Accommodation (shared twin rooms normally) the night before your course is included in the residential course fee but an evening meal is not. The comfortable Lodge bar serves food. See here for service hours <http://www.glenmorelodge.org.uk/bar-restaurant.asp>. If you are arriving the morning your course starts, please allow sufficient travel time given weather/snow and be on time. Better to arrive early and enjoy the extensive brew making facilities! Check in time is after 3pm and check out is 10am on the day of your departure. Shower facilities and luggage storage is available after checking out.

Course content and start/finish times

Please see the programme appended.

Course materials

Each student receives a comprehensive A5 size field book of notes for reference. The manual and PowerPoint slides are not available in advance or electronically post-course - sorry. This is to protect our intellectual property rights.

Suitability & pre-course experience

Prior first aid training is not required to attend. If you have never done a first aid course you must read the latest first aid manual from the Red Cross or St. John's Ambulance to bring yourself up to speed with basic first aid. WMT courses are aimed at highly motivated people with plans to travel overseas/offshore to challenging areas where medical backup is limited, poor, distant or non-existent. FFH2 students must have completed a WMT course within the last 2 years and bring a copy of their certificate to the course to attest to being in date.

Examination, certification & UK NGB award first aid requirements, attendance

All courses have a written end of course exam. The PASS MARK is 70%. Other assessment is informal and ongoing throughout the course. WMT will issue a certificate upon **full attendance**. WMT training is well recognised as the "industry standard" in a wide variety of fields and WMT certification has integrity. WMT training is valid for two years. Explorer courses will normally satisfy the first aid requirements of UK NGB outdoor awards (please check with your NGB). You must be in full attendance to receive a certificate and complete the exam so make your travel plans accordingly.

The name on your course certificate is important

The name we put on your certificate is important – it's the name that Nomad pharmacy will use on its paperwork to prescribe drugs you buy. We suggest it should be your passport name (first and last name is sufficient) to avoid any unpleasantness with foreign immigration/customs officials. We will use the name you booked the course in – better to check with us in good time if you wish to change or verify this so that a correct certificate is prepared for you and available on the day (after which only a scanned re-printed certificate will be emailed to you).

Authorisation to obtain prescription medicines

For two years post-course students can obtain the prescription only medications (POMs) and supplies that are discussed on each course through the pharmacist at Nomad Travel.

www.nomadtravel.co.uk

Contacting other delegates via WMT on FACEBOOK / RIDE SHARING

This link takes you to the EVENT page for the full 4-day Advanced Medicine course. We suggest you post here if trying to share rides regardless of which course you are on (but mention this). It's worth asking around the train station taxi rank if others are going to Glenmore Lodge to share the cost.

Some people fly up to Inverness and hire a car.

Further information

For answers and information related to ACCREDITATION, WHAT IS EXPEDITION MEDICINE? BS8848, WFR, ADVICE TO TEACHERS, SCHOOLS, MEDICAL STUDENTS and other groups, and to read archived Medical Director's Bulletins, please consult WMT's website KNOWLEDGE pages in the first instance here <http://wildernessmedicaltraining.co.uk/knowledge/>

Your email address

We will automatically add your email address to our MailChimp database and periodically we will send you Newsletters and Medical Director's Bulletins. HOWEVER – Mailchimp does not accept "role based" addresses such as info@. Please give us an alternate address if you'd like to receive our educational communications.

WMT T-shirts on sale

Normally we have a limited quantity of white technical t's with WMT logos front and back for sale - £10 cash.

Questions?

If your question is Glenmore Lodge related about administration, payments, receipts, room sharing, dietary needs, local knowledge etc. – please email Glenmore Lodge enquiries@glenmorelodge.org.uk or call +44 (0)1479 861256.

If your question is course related and not answered here or on our website, please email WMT.

Action points:

- Do you need to amend your name for certificate?
- Do you need to clarify which email address WMT should use for you?

We look forward to working with you at Glenmore Lodge.

Barry Roberts

WMT Commercial Director
